

## The Periodic Table Part 2

Name \_\_\_\_\_

1. What is the name of the element in Period 4, Group 7A?

bromine, Br

2. Indicate the atomic number, the elemental symbol, and the atomic mass in the figure below. What is the name of the element?

3. What is the name of the element that has the atomic number 92?

Uranium

4. Label the following as metals, nonmetals, or metalloids.

calcium metal

phosphorous nonmetal

hydrogen nonmetal

bismuth metal

silicon metalloid

lead metal

iodine nonmetal

arsenic metalloid

5. What is the name of the element in Period 1, Group 8A?

helium

6. What group of elements does the shaded area in the periodic table indicate?
